Midcom

Watertown, 26 June 2008

Message from the Management Board

Dear valued customer,

On 1 June 2008, a change of leadership took place at Würth Electronics Midcom in Watertown (USA). The former president, Jim Hill, left the company to enjoy his well-deserved retirement. The helm was taken by Don Rigdon and Denis Giba--our new co-presidents.

Jim Hill had a major share in the merger of Midcom and Würth Elektronik eiSos and rendered outstanding services to this process. At this point, we would like to thank him very much for this.

Within the framework of his new function, Don Rigdon assumed responsibility for the fields of technology and organization. He has been working for Midcom / Würth Electronics Midcom for more than 20 years already and held the post of Vice President of the Engineering Department.

In 2000, Denis Giba completed his studies in business management (BA) at the headquarters in Gaisbach and subsequently worked in the field of Marketing in Germany. In January 2008, Mr. Giba joined Würth Electronics Midcom as Vice President of Sales from Würth Elektronik eiSos. As President, Denis Giba is responsible for the fields of marketing and sales.

Denis Giba and Don Rigdon
