

# Infinion VDSL recommendations

DigitalTelecom

## Features

- RoHS compatible versions available
- Designed for Infineon chipsets
- Good total harmonic distortion characteristics
- Optimized for size and performance
- Customization available
- For IC approval status, contact Midcom
- 100 Ohm Line Impedance
- Designed to meet IEC950 requirements for 250VAC working voltage

Part Number	Chip Set	Application	Insulation	Turns Ratio	Inductance
52295R	Vinax	VDSL2 CPE	Functional	1.33:1	470 $\mu$ H
